1.8 Beratende Expert:innen (in alphabetischer Reihenfolge)

Christian Hannig, Dipl.-Psych., Universitätsklinikum Hamburg-Eppendorf (UKE)

Prof. Dr. David Klemperer

Prof. Dr. Oliver Tüscher, Leibniz Institut für Resilienzforschung gGmbH; Klinik für Psychiatrie und Psychotherapie, Universitätsmedizin Mainz; Universitätsklinik und Poliklinik für Psychiatrie, Psychotherapie und Psychosomatik; Universitätsmedizin Halle

Dr. Ulrike Rösler, Bundesanstalt für Arbeitsschutz und Arbeitsmedizin

2. Geltungsbereich und Zweck

2.1 Begründung des Leitlinienthemas und Zielorientierung der Leitlinie

Die Covid-19-Pandemie hat gezeigt, wie stark das psychische Wohlergehen der im Kontext stationärer Versorgungseinrichtungen Beschäftigten durch vielerlei Beanspruchungsfaktoren gefährdet wurde, und wie essenziell gleichzeitig gerade dieses Personal zur Aufrechterhaltung einer qualitativ hochwertigen Gesundheitsversorgung der Gesamtbevölkerung ist. Ziel der Leitlinie ist es, im Hinblick auf kommende pandemische oder anderweitige Krisenlagen die psychische Gesundheit von in stationären Versorgungseinrichtungen wie Kliniken oder stationären Pflegeeinrichtungen beschäftigten Personen zu fördern und aufrechtzuerhalten.

Die Leitlinie soll bei den Mitarbeitenden zu einer Besserung des mentalen Wohlbefindens, einer Reduktion psychischer Symptome, suizidalen Verhaltens und von Substanzgebrauch führen und zur Aufrechterhaltung ihrer Arbeits- und Leistungsfähigkeit sowie zur Erhöhung der Arbeitszufriedenheit und einer Minimierung der Wechselabsichten (*intention-to-leave*) beitragen. Die Empfehlungen intendieren weiterhin bei Führungskräften aller Hierarchieebenen die Förderung des Wissens über und die Haltung zu psychischer Gesundheit, und sollen sie in die Lage versetzen, für die psychische Gesundheit der Mitarbeitenden sensibel zu sein und deren Wohlergehen aktiv zu unterstützen. Auch bei allen übrigen Mitarbeitenden (ohne Personalverantwortung) soll das Wissen über psychische Gesundheit gefördert werden.

Die o.g. Endpunkte wurden für die Entscheidungsfindung nicht hierarchisiert, sondern gleichwertig betrachtet.

2.2 Zielgruppe und Versorgungsbereich

Die Zielgruppe der Leitlinie umfasst alle Beschäftigten im Kontext stationärer Behandlungs- oder Pflegeeinrichtungen. Hierzu zählen neben therapeutischem und pflegerischem Personal alle dort tätigen Arbeitnehmenden mit oder ohne Patient:innenkontakt, bzw. im Falle stationärer Pflegeeinrichtungen Kontakt zu den Bewohnenden, einschließlich hauswirtschaftlichem, administrativem oder wissenschaftlichem Personal, unabhängig davon, ob die Personen direkt bei der betreffenden Einrichtung

oder Fremdfirmen angestellt sind (bspw. bei Fremdfirmen beschäftigtes Reinigungspersonal), und unabhängig davon, ob sie eine Führungsposition einnehmen oder nicht.

Weiterhin umfasst die Zielgruppe alle Beschäftigten, die aktuell nicht krankheitsbedingt absent sind, unabhängig von deren tatsächlicher Belastung, bereits vorliegenden negativen Beanspruchungsfolgen oder der Krankheitswertigkeit eventuell vorliegender aktueller Symptome.

Die Leitlinie adressiert die Prävention und Früherkennung psychischer Belastungszustände des Gesundheitspersonals im stationären Versorgungskontext während anhaltender Krisenlagen wie einer Epidemie, Pandemie oder nicht erregerassoziierten Krisenlagen, welche die Gesundheitsversorgung erheblich belasten oder gefährden.

2.3 Anwendendenzielgruppe und Adressat:innen

Adressat:innen der Leitlinie sind Ärztinnen und Ärzte in der Arbeits- und Betriebsmedizin, Sozialmediziner:innen, Arbeitswissenschaftler:innen sowie Psychiater:innen, Ärzt:innen für psychosomatische Medizin und Psychologen:innen, sowie Beschäftigte i.S. der o.g. Zielgruppe selbst. Die Leitlinie dient der Information aller mit der Thematik beschäftigten Vertreter:innen im Gesundheits- und Sozialwesen (z.B. Allgemeinmediziner:innen sowie Fachärzt:innen aller Fachgebiete, die Beschäftigte i.S. der o.g. Zielgruppe in Bezug auf ihre psychische Gesundheit beraten und behandeln, staatliche Gewerbeärzt:innen Krankenkassen, Kostenträger:innen, Betriebe), die Sozialpartner:innen (Arbeitgeber:innen und Arbeitnehmer:innen) und deren Vertretungen sowie alle Experten:innen im Arbeits- und Gesundheitsschutz.

3. Zusammensetzung der Leitliniengruppe: Beteiligung von Interessengruppen

Bei der Konstitution der Leitliniengruppe wurde darauf geachtet, klinische und praktische Expertise bzw. Anwendenden- und Zielgruppenperspektiven gleichermaßen zu berücksichtigen, um Praxisproblem bzw. perspektivische Probleme in der Umsetzung erkennen und adressieren zu können. Die Leitliniengruppe wurde außerdem interprofessionell und -disziplinär besetzt. Gleichzeitig wurde durch die direkte und ausgewogene Beteiligung aller relevanten Personengruppen einer potenziellen systematischen Verzerrung durch Partikularinteressen entgegengewirkt.

Die Leitliniengruppe hat selbst ihre Vollständigkeit i.S. der Repräsentativität für den Adressat:innenkreis und die Zielgruppe kritisch überprüft und in der konsituierenden Sitzung am 20.02.2023 festgestellt.

3.1 Beteiligte Berufsgruppen

Bei der Zusammensetzung der Leitliniengruppe wurde darauf geachtet, Mandatstragende möglichst aller Fachgruppen, die im Kontext der Leitlinie als Anwendende adressiert werden, einzubeziehen.

Insofern waren in der interdisziplinären und interprofessionellen Leitliniengruppe verschiedene medizinische Fachrichtungen (u.a. Arbeitsmedizin, Innere Medizin, Intensivmedizin, Kinder- und Jugendmedizin, Psychiatrie und Psychotherapie, Psychosomatik, Sozialmedizin) und anderweitige Berufsgruppen aus den Bereichen Psychologie, Pflege und Pflegewissenschaft sowie weitere medizinische Fachberufe und Soziale Arbeit vertreten. Hinsichtlich Stimmberechtigung im Konsensverfahren und der Erstellung der Leitlinientexte waren alle Berufsgruppen und Adressat:innenperspektiven gleichgestellt.

Darüber hinaus wurden potenziell Anwendende der Leitlinie eingeladen, im Zuge der öffentlichen externen Kommentierung den Leitlinientext zu kommentieren.

3.2 Zielpopulation

Zwischen der Gruppe der Anwendenden und der Zielpopulation bestehen erhebliche Überschneidungen, da ein Großteil der Leitliniengruppe selbst im Kontext stationärer Versorgungseinrichtungen wie Universitätsklinikum beschäftigt und damit selbst auch Teil der Zielpopulation ist. Insbesondere wurde jedoch auch darauf geachtet, die Perspektive der Mitarbeitenden ohne direkten Patient:innenkontakt, wie Angehörige anderweitiger medizinischer Fachberufe oder der Sozialen Arbeit einzubeziehen.

Mandatstragende, die ausschließlich der Zielpopulation repräsentierten, hatten im Zuge des Konsensverfahrens und der Texterstellung der Leitlinie dieselben Rechte wie Vertretende der Anwendendengruppe. Alle Personen, die der Zielpopulation zugerechnet werden können, wurden zudem eingeladen, im Zuge der öffentlichen externen Konsultationsphase den Leitlinientext zu kommentieren.

4. Methodische Exaktheit

4.1 Recherche, Auswahl und Bewertung wissenschaftlicher Belege (Evidenzbasierung)

4.1.1 Verwendung existierender Leitlinien zum Thema

Zu Beginn erfolgte eine explorative Suche nach Leitlinien, um inhaltliche Redundanzen mit vorhandenen deutschen Leitlinien zu vermeiden und gleichzeitig bereits existierende, relevante internationale Leitlinien in die vorliegende Leitlinie einfließen lassen zu können. Zwischen dem 13. und 15.10.2022 wurden die folgenden Quellen zur Recherche nach relevanten Evidenz- und konsensbasierten Leitlinien genutzt zu den Begriffen *mental health, work, workplace, disaster, Covid-19, pandemic* (bzw. *psychische Gesundheit, Gesundheitspersonal, Arbeitsplatz, Krise, Katastrophe, Covid-19, Pandemie* oder „Gesundheitspersonal“ und/oder „Arbeit“ und/oder „Krise“ und/oder „Katastrophe“)[2]:

- AWMF-Leitlinien-Datenbank für deutsche Leitlinien (<https://register.awmf.org/de/start>)
- Datenbank des *Guidelines International Network* (GIN; <https://g-i-n.net/international-guidelines-library>)?
- Britisches *National Institute for Health and Care Excellence* (NICE; <https://www.nice.org.uk/guidance/published>)

Einschlusskriterien für potenziell relevante waren eine hinreichende inhaltliche Passung (P: Gesundheitspersonal und/oder im Kontext stationärer Gesundheitsversorgung oder Pflegeeinrichtungen Angestellte, O: psychische Gesundheit, arbeitsbezogene Endpunkte), verfasst in englischer oder

deutscher Sprache. Da sich keinerlei Referenzen auf themenrelevante Leitlinien im Kontext von andauernden Krisenlagen ergaben, wurde auf Krisenlagen als Einschlusskriterium verzichtet.

Die Suche ergab für das deutsche Leitlinienregister der AWMF kein relevantes Leitlinienvorhaben, lediglich als themenverwandte Leitlinien diejenigen zur Prävention des Burnouts (Register-Nummer 188-001), Diagnostik und Behandlung von akuten Folgen psychischer Traumatisierung (Register-Nummer 051-027), Katastrophenmedizinische prähospitalen Behandlungsleitlinien (Register-Nummer 001-043) sowie die Behandlungsleitlinien und Behandlungsstrategien für den Einsatz in klinischen Krisen- und Katastrophenmedizin (Register-Nummer 187-048).

Die Suche in den internationalen Registern des G-I-N-Networks und von NICE ergaben zwei Leitlinien, die ebenfalls evidenzbasiert erstellt wurden und die psychische Gesundheit am Arbeitsplatz adressieren, beide jedoch ohne Krisenbezug: Zum einen die NICE-Leitlinie *Mental wellbeing at work (NG212)* [14], zum anderen die WHO-Leitlinie *Mental Health at Work* [12]. Da letztere im Gegensatz zur NICE-Leitlinie spezifische Fragestellungen zu im Bereich Gesundheitsversorgung beschäftigten Personen enthält, wurde beschlossen, die WHO-Leitlinie bzw. die auf die relevante Zielgruppe bezogenen Fragestellungen und Empfehlungen als Quell-Leitlinie zu verwenden.

Im Gegensatz zur WHO-Leitlinie [12] wurden jedoch nur Maßnahmen der Primär- und Sekundärprävention betrachtet. Fragestellungen zur Rehabilitation oder Wiedereingliederung bereits aufgrund (psychischer) Erkrankungen arbeitsunfähiger Beschäftigter waren nicht Gegenstand der vorliegenden Leitlinie (vgl. auch Kapitel 2).

Die WHO-Leitlinie wurde durch zwei Mitglieder des Koordinationsteams (SL, JSW) unabhängig voneinander mit dem AGREE-II-Tool [3] bewertet und erreichte hier insgesamt die höchst mögliche Gesamtqualität (7/7 Punkten). Minimale Abzüge waren nur bei der Domäne "Genauigkeit der Leitlinienentwicklung" (98%) notwendig, da die vollständigen Suchstrategien nicht in der Publikation enthalten waren, jedoch dankenswerterweise von den Leitlinienautoren auf Nachfrage bereitgestellt wurden.

4.1.2 Formulierung der Fragestellungen und Priorisierung der Endpunkte

4.1.2.1 Auswahl der Fragestellungen aus der Quell-Leitlinie

Aus der WHO-Leitlinie zur psychischen Gesundheit am Arbeitsplatz [12] wurden durch die Leitliniengruppe in der konstituierenden Sitzung am 20.02.2023 Fragestellungen zu folgenden Themenbereichen ausgewählt:

1. Verhältnisprävention: Maßnahmen auf betrieblich-arbeitsorganisatorischer Ebene (WHO-Fragestellungen 2 und 3)
2. Sensibilisierung und Förderung von Gesundheitswissen bei Führungspersonal und Mitarbeitenden (WHO-Fragestellungen 5 und 7)
3. Verhaltensprävention: individuumsbezogene Maßnahmen (WHO-Fragestellungen 7, 8 und 9)
4. Screeningmaßnahmen (WHO-Fragestellung 13)

Die Nummerierung der Fragestellungen wurde in der hier vorliegenden S3-Leitlinie entsprechend derjenigen der Quell-Leitlinie beibehalten und ist daher nicht fortlaufend.

4.1.2.2 Kontext der Fragestellungen

Fragenübergreifend wurden anhand des PICO-Schemas folgende übergreifende Rahmenbedingungen für die zu entwickelnde Leitlinie festgelegt (PICO):

- Die Zielgruppe der Leitlinie umfasst alle Beschäftigten im Kontext stationärer Behandlungs- oder Pflegeeinrichtungen. Hierzu zählen neben therapeutischem und pflegerischem Personal alle dort tätigen Arbeitnehmenden mit oder ohne Patient:innenkontakt, bzw. im Falle stationärer Pflegeeinrichtungen Kontakt zu den Bewohnenden, einschließlich hauswirtschaftlichem, administrativem oder wissenschaftlichem Personal, unabhängig davon, ob die Personen direkt bei der betreffenden Einrichtung oder Fremdfirmen angestellt sind (bspw. bei Fremdfirmen beschäftigtes Reinigungspersonal), und unabhängig davon, ob sie eine Führungsposition einnehmen oder nicht.
- Die Zielgruppe umfasst alle Beschäftigten, die aktuell nicht krankheitsbedingt absent sind, unabhängig von tatsächlicher Belastung oder bereits vorliegenden negativen Beanspruchungsfolgen.
- Auch ggf. teil- oder vollzeitig im Homeoffice tätige Personen sind explizit eingeschlossen.
- Vergleichsbedingungen umfassen keine oder anderweitige Maßnahmen.

4.1.2.3 Fragestellungen der vorliegenden Leitlinie

Themenbereich Verhältnisprävention: betrieblich-organisatorische Maßnahmen

Fragestellung 2:

Welche **betrieblichen Maßnahmen (einschließlich gruppenbezogener Interventionen)** sind bei **Gesundheitspersonal** während andauernder Krisen und Katastrophen verbunden mit

- Besserung des mentalen Wohlbefindens
- Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch
- Erhalt der Arbeits- und Leistungsfähigkeit
- Erwünschten Änderungen des *commitments*/der *intention-to-leave*
- Unerwünschten Wirkungen?

Fragestellung 3:

Welche **betrieblichen Maßnahmen (einschließlich gruppenbezogener Interventionen)** sind bei **Gesundheitspersonal mit erheblichem Belastungserleben** während andauernder Krisen und Katastrophen verbunden mit einer

- Besserung des mentalen Wohlbefindens
- Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch
- Erhalt der Arbeits- und Leistungsfähigkeit
- Erwünschten Änderungen des *commitments*/der *intention-to-leave*
- Unerwünschten Wirkungen?

Themenbereich „Sensibilisierung und Förderung des Gesundheitswissens“

Fragestellung 5:

Welche **Trainingsmaßnahmen für Führungskräfte** von Gesundheitspersonal sind während andauernder Krisen und Katastrophen verbunden mit

a) bei den Führungskräften: einer Verbesserung

- des Wissens über und der Haltung zu (i.S. Sensibilisierung für) mentale Gesundheit
- der Fähigkeit, die psychische Gesundheit der Mitarbeitenden und deren Wohlergehen aktiv zu unterstützen

b) bei den Mitarbeitenden:

- Besserung des mentalen Wohlbefindens
- Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch
- Erhalt der Arbeits- und Leistungsfähigkeit
- Erwünschten Änderungen des *commitments*/der *intention-to-leave*
- Unerwünschten Wirkungen?

Fragestellung 7:

Welche **Trainingsmaßnahmen für Gesundheitspersonal (inklusive Führungspersonal)** sind während andauernder Krisen und Katastrophen verbunden mit

- einer Verbesserung
- des Wissens über und der Haltung zu (i.S. Sensibilisierung für) mentale Gesundheit
- der Fähigkeit, die eigene psychische Gesundheit und das mentale Wohlergehen aktiv zu unterstützen
- Besserung des mentalen Wohlbefindens
- Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch
- Erhalt der Arbeits- und Leistungsfähigkeit
- Erwünschten Änderungen des *commitments*/der *intention-to-leave*
- Unerwünschten Wirkungen?

Themenbereich Verhaltensprävention: individuumorientierte Maßnahmen

Fragestellung 9A¹:

¹ Fragestellungen 9A und 9B umfassen und adaptieren folgende Fragestellungen der Quell-Leitlinie: Fragestellung 8 (universelle Interventionen), 9 (universelle Interventionen bei besonders exponierten Berufsgruppen wie Gesundheitspersonal) und 10 (selektive Interventionen für Mitarbeitende mit erhöhtem Belastungserleben) der Quell-Leitlinie

Welche **universellen, individuumorientierte oder gruppenbezogene** Maßnahmen sind **bei Gesundheitspersonal** während andauernder Krisen und Katastrophen verbunden mit

- Besserung des mentalen Wohlbefindens
- Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch
- Erhalt der Arbeits- und Leistungsfähigkeit
- erwünschten Änderungen des *commitments*/der *intention-to-leave*
- unerwünschten Wirkungen?

Fragestellung 9B:

Welche **universellen, individuumorientierte oder gruppenbezogene** Maßnahmen sind **bei Gesundheitspersonal mit erheblichem Belastungserleben** während andauernder Krisen und Katastrophen verbunden mit

- Besserung des mentalen Wohlbefindens
- Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch
- Erhalt der Arbeits- und Leistungsfähigkeit
- erwünschten Änderungen des *commitments*/der *intention-to-leave*
- unerwünschten Wirkungen?

Screening-Maßnahmen

Fragestellung 13:

Werden betrieblichen **Screeningprogramme psychischer Gesundheit** während des **Beschäftigungsverhältnisses** während andauernder Krisen und Katastrophen

- durch Gesundheitspersonal akzeptiert, und
- führen diese zu
 - Besserung des mentalen Wohlbefindens
 - Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch
 - Erhalt der Arbeits- und Leistungsfähigkeit
 - erwünschten Änderungen des *commitments*/der *intention-to-leave*
 - unerwünschten Wirkungen?

4.1.3 Systematische Literaturrecherche

Für alle Schlüsselfragen wurde eine systematische Literaturrecherche in folgenden Datenbanken durchgeführt:

- Cochrane Library - Suchdatum: 06.04.2023 - 18.04.2023
- PubMed (via EBSCO) - Suchdatum: 06.04.2023 - 18.04.2023
- PsycINFO (via EBSCO) - Suchdatum: 12.04.2023 - 18.04.2023

Die Details der Literaturrecherche sind im Anhang aufgeführt. Außerdem wurden in den Literaturverzeichnissen der identifizierten Reviews und Metaanalysen nach relevanten Publikationen gesucht. Zusätzlich wurden die Mitglieder der Konsensusgruppe um Zusendung relevanter Literatur zu den Themen gebeten.

Zu allen Themenblöcken erfolgten aktualisierende Literaturrecherchen entsprechend von der WHO-Quelleleitlinie verwendeten Suchstrategie mit Modifizierung in Bezug auf die Population (Fokus auf Gesundheitspersonal entsprechend der dieser Leitlinie zugrundeliegenden Definition, vgl. 4.1.2.2). Die Qualitätssicherung der Modifizierung, sowie Anpassung der Suchstrategie an die jeweiligen Datenbanken erfolgte durch eine Informationsspezialistin (Lorena Cascant Ortolano; Universitätsbibliothek Mainz, Bereichsbibliothek Universitätsmedizin).

4.1.4 Auswahl der Evidenz

Alle Suchresultate wurden in das Literaturverwaltungsprogramm Zotero überführt, in das Dateiformat RIS umformatiert und mithilfe des Deduplikationstools *Deduplicator* schließlich dedupliziert [4].

Die potenziell relevanten Publikationen wurden unabhängig voneinander zunächst anhand des Titels und Abstracts und im zweiten Schritt auf Volltext-Ebene geprüft.

Der allgemeine Kontext aller Fragestellungen dieser Leitlinie ist in Abschnitt 4.1.2.2 dargelegt. Die individuellen Einschlusskriterien der jeweiligen Fragestellungen finden sich im Anhang (10.1.2, 10.1.4, 10.2.2, 10.2.4, 10.3.2, 10.4.2, 10.4.4) sind außerdem auch im Leitlinientext den zugehörigen Evidenztabelle vorangestellt (vgl. dort Anhänge 2-8).

Bei der Auswahl der Evidenz (für systematische Reviews und Metaanalysen, sowie Primärstudien) wurde dem PICO-Schema (**P**opulation – **I**ntervention – **C**ontrol Intervention – **O**utcome) gefolgt. Nur wenn mithilfe der identifizierten Studie die Beantwortung einer klinisch relevanten Schlüsselfrage möglich schien, wurde die Arbeit berücksichtigt.

4.1.5 Bewertung der Evidenz und Erstellung von Evidenzzusammenfassungen

Die Qualitätsbewertung der identifizierten systematischen Reviews und Meta-Analysen erfolgte mit dem Bewertungsinstrument AMSTAR-2 [10] durch zwei Raterinnen unabhängig voneinander. Zur Bewertung der Qualität einzelner Primärstudien wurden die jeweiligen Ratings der Evidenzsynthesen herangezogen, anhand derer sie identifiziert worden waren. I.d.R. wurden dort entweder das Cochrane Risk-of-Bias Tool [7] oder das Cochrane Risk-of-Bias 2.0 Tools herangezogen [11]. Sofern keine validierte standardisierte Bewertung der Studienqualität aus den Evidenzsynthesen vorlag, wurde diese ergänzt.

Die Resultate der Qualitätsbewertung werden gemeinsam mit den Studiencharakteristika und Ergebnissen der Studien in den Evidenztabelle bzw. *Summary of Findings*-Tabellen zusammenfassend dargestellt (vgl. Evidenztabelle zu den jeweiligen Fragestellungen in Anhang 2 der Leitlinie).

Die Einstufung der Vertrauenswürdigkeit des identifizierten Evidenzkörpers insgesamt erfolgte, analog zur Quell-Leitlinie, nach dem GRADE Ansatz [5] (deutsch [8]). Hierbei wird die Gesamtheit der eingeschlossenen Studien nicht nur im Hinblick auf das Verzerrungsrisiko innerhalb der Primärstudien

aufgrund deren Studiendesigns, sondern auch in Bezug auf die methodische Exaktheit der Durchführung sowie der Indirektheit, Inkonsistenz, Präzision der Ergebnisse, sowie Publikationsbias bewertet. Insofern wird das Vertrauen in die Effektschätzer über die eingeschlossenen Studien zu einer Fragestellung hinweg formalisiert und bezogen auf den ausgewählten relevanten Endpunkt bewertet [6] (vgl. *Summary of Findings*-Tabellen zu den jeweiligen Fragestellungen in Anhang 2 der Leitlinie).

TABELLE 1: EVIDENZGRADE: VERTRAUENSWÜRDIGKEIT DER EVIDENZ NACH GRADE

Grad	Definition	Symbol
Hoch	Wir sind sehr sicher, dass der wahre Effekt nahe bei dem Effektschätzer liegt.	⊕⊕⊕⊕
Moderat	Wir haben mäßig viel Vertrauen in den Effektschätzer: Der wahre Effekt ist wahrscheinlich nahe bei dem Effektschätzer, aber es besteht die Möglichkeit, dass er relevant verschieden ist.	⊕⊕⊕⊖
Niedrig	Unser Vertrauen in den Effektschätzer ist begrenzt: Der wahre Effekt kann durchaus relevant verschieden vom Effektschätzer sein.	⊕⊕⊖⊖
Sehr niedrig	Wir haben nur sehr wenig Vertrauen in den Effektschätzer: Der wahre Effekt ist wahrscheinlich relevant verschieden vom Effektschätzer.	⊕⊖⊖⊖

Sämtliche Qualitätsbewertungen erfolgten unabhängig durch zwei Personen. Unstimmigkeiten wurden im Rahmen eines Meetings diskutiert und aufgelöst.

4.1.6 Verknüpfung von Evidenz und Empfehlung

Die Empfehlungen wurden innerhalb der Leitliniengruppe nach Diskussion der wie unter 4.1.5 dargestellt zusammengefasst und bewerteten Evidenz formuliert und verabschiedet. Für jede einzelne Empfehlung wird dabei im Leitlinientext die zugrundeliegende Evidenz in Übersichtstabellen benannt, und diese Evidenz in verknüpften Evidenztabellen im Anhang des Leitlinientexts detailliert beschrieben (Charakteristika und methodische Bewertung).

Jeder Empfehlung ist in der Leitlinie ein Abschnitt vorangestellt, in welchem beschrieben wird, wie die Leitliniengruppe die Evidenz jeweils bewertet, diskutiert und zur Entscheidungsfindung genutzt hat („Kritische Bewertung und Übertragbarkeit der Evidenz“).

4.2 Formulierung der Empfehlungen und strukturierte Konsensfindung

4.2.1 Formale Konsensfindung: Verfahren und Durchführung

In Kleingruppen wurden die jeweiligen Themenbereiche (Arbeitsgruppe 1: Verhältnisprävention, Arbeitsgruppe 2: Sensibilisierung und Förderung des Gesundheitswissens, Arbeitsgruppe 3: Verhaltensprävention) diskutiert und Empfehlungsvorschläge auf Basis der Quellleitlinie und der zusätzlich identifizierten neuen Evidenz erarbeitet und vorformuliert.

Während der großen Konsensuskonferenzen des gesamten Leitlinienpanels wurden jeweils die Evidenz und Rationale zu den Empfehlungen der Quelleitlinie sowie die neu identifizierte Evidenz und die erarbeiteten Empfehlungsvorschläge präsentiert. Alle Mandatstragenden hatten die Möglichkeit, Nachfragen, inhaltliche und redaktionelle Änderungswünsche und Verbesserungsvorschläge für die Empfehlungen zu äußern. Unter der unabhängigen Moderation durch Frau Dr. Monika Nothacker (AWMF-IMWi) wurden die Empfehlungsvorschläge diskutiert, bei Bedarf Alternativvorschläge erarbeitet und die Empfehlungen endgültig verabschiedet. Jeweils eine mandatstragende Person pro Fachgesellschaft hatte die Möglichkeit, den einzelnen Empfehlungen zuzustimmen, diese abzulehnen oder sich zu enthalten. Berücksichtigt wurden in dem Abstimmungsverfahren mögliche Interessenkonflikte, so dass es teilweise zu Doppelabstimmungen kam (vgl. 6.2). Im folgenden Abschnitt werden beide Abstimmungsergebnisse berichtet.

Im Rahmen der ersten Konsensuskonferenz (19.06.2023) wurden zwei Themenkomplexe zur betrieblichen Gesundheitsprävention vorgestellt. Gegenstand der Diskussion waren die Fragestellungen 2 und 3, wobei lediglich die Empfehlung zu Fragestellung 2 konsentiert wurde.

Fragestellung 2

Empfehlung 2: Es wird vorgeschlagen, betriebliche Maßnahmen mit Bezug auf psychosoziale Risikofaktoren für Gesundheitspersonal in Erwägung zu ziehen, um die psychische Belastung zu reduzieren und arbeitsbezogene Endpunkte zu verbessern.

Als Beispiele für derartige Maßnahmen gelten die Reduktion der Arbeitsbelastung, die Anpassung von Arbeitsplänen, die Verbesserung der Kommunikation und Teamarbeit, partizipative Maßnahmen sowie multimodale bzw. Multi-Komponenten-Ansätze.

Abstimmungsergebnis:

17 Stimmen für „Ja“, keine Gegenstimmen, keine Enthaltungen.

Die zweite Konsensuskonferenz (11.09.2023) befasste sich mit der Evidenzlage und den Empfehlungen zu Interventionen zur Sensibilisierung und Förderung des Gesundheitswissens. Im Rahmen der Sitzung wurden die Fragestellungen 5, 7 und 13 diskutiert und abgestimmt.

Fragestellung 3:

Empfehlung 3A: Wir empfehlen, dass für Mitarbeiter:innen mit psychischen Störungen, einschließlich Personen mit psychosozialen Einschränkungen/Problemen sinnvolle Anpassungen der Arbeitsbedingungen in Übereinstimmung mit den Grundsätzen der internationalen Menschenrechte vorgenommen werden.

Abstimmungsergebnis **ohne Interessenskonflikte:**

15 Stimmen für „Ja“, eine Gegenstimme, eine Enthaltung.

Abstimmungsergebnis alle **beteiligten Fachgruppen:**

16 Stimmen für „Ja“, eine Gegenstimme, eine Enthaltung.

Empfehlung 3B: Wir empfehlen, klare Zuständigkeiten/Ansprechpartner:innen für psychisch hochbelastete, aber noch nicht ausgefallene Mitarbeitende zu definieren, um diese Empfehlungen umzusetzen und ggf. Kontakte zu weiteren etablierten Unterstützungsangeboten herzustellen.

Abstimmungsergebnis:

17 Stimmen für „Ja“, keine Gegenstimme, keine Enthaltungen.

Die Konsensstärke wurde gemäß AWMF-Regelwerk klassifiziert (vgl. Tabelle 2). Zur Annahme einer Empfehlung war eine Zustimmung von >75% der abstimmenden Mandatstragenden notwendig. Enthaltungen wurden von der Grundgesamtheit der abstimmenden Mandatstragenden abgezogen. Bei der überwiegenden Mehrheit konnte ein starker Konsens erreicht werden (bei 8 von 12 Empfehlungen).

Fragestellung 5

Empfehlung 5: Es wird empfohlen, Trainingsmaßnahmen für Führungskräfte durchzuführen, die auf die Unterstützung der mentalen Gesundheit des Gesundheitspersonals abzielen. Ziel ist die Förderung von Wissen, Einstellungen und Handlungsbereitschaft der Führungskräfte im Hinblick auf mentale Gesundheit.

Abstimmungsergebnis:

14 Stimmen für „Ja“, keine Gegenstimmen, eine Enthaltung.

Fragestellung 7:

Empfehlung 7: Wir schlagen vor, Gesundheitspersonal zum Thema mentales Gesundheitsbewusstsein und mentale Gesundheitskompetenzen zu schulen, um Wissen über psychische Gesundheit und Einstellungen im Arbeitskontext (einschließlich stigmatisierender Haltungen, zu verbessern).

Abstimmungsergebnis:

14 Stimmen für „Ja“, eine Gegenstimme, keine Enthaltungen.

Fragestellung 13:

Empfehlung 13: Da unklar ist, ob der potenzielle Nutzen von Screening-Programmen die potenziellen Schäden überwiegt, hat die Leitlinienentwicklungsgruppe keine Empfehlung für oder gegen Screening-Programme während des Beschäftigungsverhältnisses abgegeben.

Abstimmungsergebnis:

15 Stimmen für „Ja“, keine Gegenstimmen, keine Enthaltungen.

Die dritte Konsensuskonferenz (15.09.2023) behandelte die Themen der Verhaltensprävention. Im Anschluss an die Konferenz erfolgte eine Online-Abstimmung zu den Fragestellungen 9A, 9B sowie 3.

Fragestellung 9

Empfehlung 9A: Wir schlagen vor, allgemeine psychosoziale Maßnahmen durchzuführen mit dem Ziel, die Fähigkeiten des Gesundheitspersonals im Stressmanagement aufzubauen, um die psychische Gesundheit positiv zu beeinflussen und die psychische Belastung zu reduzieren.

Abstimmungsergebnis **ohne Interessenskonflikte:**

15 Stimmen für „Ja“, eine Gegenstimme, eine Enthaltung.

Abstimmungsergebnis alle **beteiligten Fachgruppen:**

16 Stimmen für „Ja“, eine Gegenstimme, eine Enthaltung.

Empfehlung 9B: Wir schlagen vor, psychosoziale Maßnahmen wie beispielsweise Stressmanagement- und Self-Care-Training oder Kommunikationstraining für Gesundheitspersonal mit Beeinträchtigungen der psychischen Gesundheit zur Verfügung zu stellen.

Abstimmungsergebnis **ohne Interessenskonflikte:**

15 Stimmen für „Ja“, eine Gegenstimme, eine Enthaltung.

Abstimmungsergebnis alle **beteiligten Fachgruppen:**

16 Stimmen für „Ja“, eine Gegenstimme, eine Enthaltung.

TABELLE 2: KLASSIFIKATION DER KONSENSSTÄRKE

Klassifikation der Konsensusstärke	
Starker Konsens	> 95% der Stimmberechtigten
Konsens	> 75-95% der Stimmberechtigten
Mehrheitliche Zustimmung	> 50-75% der Stimmberechtigten
Keine mehrheitliche Zustimmung	< 50% der Stimmberechtigten

4.2.2 Berücksichtigung von Nutzen und unerwünschten Wirkungen und weiteren Kriterien: *Evidence-to-decision- Ansatz*

Zu Beginn des Leitlinienprojekts wurden in der Entscheidungsfindung zu berücksichtigende Kriterien festgestellt, darunter neben Nutzen und unerwünschten Erwägung insbesondere das Vertrauen in die Evidenz, Wichtigkeit und Vollständigkeit der Endpunkte, Ressourcen sowie die Akzeptanz der Maßnahmen [1, 9]. Diese *Evidence-to-decision* (EtD)-Kriterien wurden im Rahmen der Konsensfindung ausführlich diskutiert.

Allen Empfehlungen sind im Leitlinientext detaillierte Überlegungen zu Abwägungen der EtD-Kriterien vorangestellt. Eingegangen wird hierbei auch auf Implementierungsbarrieren (wie Akzeptanz der

Maßnahmen, Arbeitsorganisatorische Hindernisse) und Lösungsvorschläge, wie sie innerhalb der Konsensrunde diskutiert wurden.

4.2.3 Formulierung der Empfehlungen und Vergabe von Evidenzgraden und Empfehlungsstärken

Die Empfehlungsstärke wurde durch die Leitliniengruppe nach Diskussion der Evidenz im Hinblick auf die EtD-Kriterien beschlossen. Analog zur WHO-Quell-Leitlinie wurde hier ein zweistufiges Graduierungsschema der Empfehlungsstärken verwendet, und entsprechend des AWMF-Regelwerks folgende Sprachregelung angewandt (Tabelle 3).

TABELLE 3: ZWEISTUFIGES SCHEMA ZUR GRADIERUNG VON EMPFEHLUNGEN NACH AWMF-REGELWERK

Empfehlungsgrad	Beschreibung	Ausdrucksweise	Symbol
1	Starke Empfehlung	Wir empfehlen... / empfehlen nicht...	●●
2	Konditionale (abgeschwächte) Empfehlung	Wir schlagen vor... / schlagen nicht vor...	●

5. Externe Begutachtung und Verabschiedung

5.1 Externe Begutachtung

Die Leitlinie wurde @vom [...] bis zur externen Konsultation im Leitlinienregister der AWMF und auf der Webseite der DGPPN e.V. bereitgestellt. Die beteiligten Fachgesellschaften und Organisationen wurden darüber informiert und um Verbreitung unter ihren Mitgliedern und weiteren interessierten Kreisen gebeten. Externe Kommentare, d.h. von nicht an der Leitlinienerstellung beteiligten Personen und Organisationen, wurden mittels eines standardisierten Kommentierungsbogens erfasst, und der Umgang damit dokumentiert (s. Abschnitt 11).

5.2 Verabschiedung durch die Vorstände der herausgebenden Fachgesellschaften und Organisationen

Die Leitlinie wurde im Zeitraum 01.03.2022 bis 01.05.2022 von den Vorständen der beteiligten Fachgesellschaften und Organisationen verabschiedet.

6. Redaktionelle Unabhängigkeit

6.1 Finanzierung der Leitlinie

Die Leitlinienerstellung wurde unterstützt durch das Bundesministerium für Bildung und Forschung (BMBF) im Rahmen des Netzwerks Universitätsmedizin 2.0: "NUM 2.0", Nr. 01KX2121, Projekt: Projekt Preparedness and Pandemic Response in Deutschland (PREPARED). Die unterstützenden Institutionen haben keinerlei Einfluss auf die Inhalte der Leitlinie genommen.

6.2 Darlegung von und Umgang mit Interessenkonflikten

Alle an der Erstellung einer Leitlinie Beteiligten wurden im Vorfeld der ersten Konsenssitzung aufgefordert, ihre Interessen schriftlich mit Hilfe eines Formblattes im AWMF-Portal Interessenerklärung Online zu erklären. Mögliche Interessenkonflikte (IKe) wurden nicht nur von Mandatsragenden, sondern auch von Mitgliedern des Koordinationsteams erfragt und eingeschätzt. Erfasst wurden alle direkten, finanziellen sowie indirekten Interessen (bspw. die mandatierende Organisation, wissenschaftlicher Schwerpunkt) zu nachfolgend genannten Aspekten:

Direkte, finanzielle Interessen:

- Tätigkeit als Berater*in und/oder Gutachter*in
- Mitarbeit in einem Wissenschaftlichen Beirat (advisory board)
- Bezahlte Vortrags-/oder Schulungstätigkeit
- Bezahlte Autoren-/oder Co-autorenschaft
- Forschungs-vorhaben/Durch-führung klinischer Studien
- Eigentümer-interessen (Patent, Urheber-recht, Aktien-besitz)

Indirekte Interessen:

- Mitgliedschaft/Funktion in Interessen-verbänden
- Schwerpunkte wissenschaftlicher Tätigkeiten, Publikationen
- Schwerpunkte klinischer Tätigkeiten
- Federf-ührende Beteili-gung an Fort-bildungen/Ausbildungs-instituten
- Persönliche Beziehungen (als Partner*in oder Verwandte*r 1. Grades) zu einem Vertretungsberechtigten eines Unternehmens der Gesundheitswirtschaft

Die initiale Bewertung der deklarierten Interessen wurde durch Prof. David Klemperer als externem Bewerter und jeweils einem Mitglied des Koordinationsteams (JSW, SL, HW, CS) durchgeführt. Im Falle zunächst unvollständig oder missverständlich ausgefüllter Profile wurden die jeweiligen Mandatstragenden um Vervollständigung bzw. Erläuterung gebeten. In einer zweiten Bewertungsrunde wurden diese dann von jeweils zwei Mitgliedern des Koordinationsteams (JSW, SL, HW, CS) bewertet.

Die Bewertung der Interessen erfolgte nach der Einschätzung, ob ein thematischer Bezug zur Leitlinie insgesamt und/oder in Bezug auf spezifische Fragestellungen vorliegen. Etwaige IKe wurden hinsichtlich ihrer Relevanz entsprechend des AWMF-Algorithmus' zur Bewertung von Interessen und Umgang mit Iken in "kein", „gering“, „moderat“ und „hoch“ unter Berücksichtigung des eventuellen Ausmaßes des resultierenden Konflikts eingestuft. Entsprechend wurden die Konsequenzen festgelegt (IK „gering“: Limitierung von Leitungsfunktionen; „moderat“: Stimmenthaltung bei tangierten Fragestellungen bzw. Doppelabstimmung; „hoch“: Ausschluss von thematisch relevanten Beratungen und keine Abstimmung).

Die Mehrheit der beteiligten Personen weist keine relevanten IKE auf. Die häufig genannten Mitgliedschaften in Fachgesellschaften sowie wissenschaftliche oder klinische Tätigkeiten wurden als nicht konfliktrichtig eingestuft.

Vier Personen haben moderate IKE, die sich auf spezifische Themen beziehen (Ohrakupunktur oder Konzepte kollegialer Unterstützung). In diesen Fällen wurde eine Doppelabstimmung ohne vs. mit Mandatstragenden mit IKen in den betroffenen Leitlinienthemen vorgesehen.

Bezahlte Tätigkeiten wie Beratung, Gutachten, Vorträge oder Autorenschaft werden in fast allen Fällen mit „Nein“ angegeben.

Forschungsförderungen durch öffentliche Mittel (BMBF/BMFTR, DFG, DRV, Innovationsfonds, Ministerien, Stiftungen) wurden als nicht IK-relevant bewertet.

Insgesamt ergibt sich ein durchweg niedriger Interessenkonfliktstatus der Gruppe, mit nur wenigen klar abgegrenzten moderaten Konflikten bei vier Personen und entsprechenden Maßnahmen bei der Abstimmung zu den Empfehlungen.

Eine Übersicht der Erklärungen potenzieller IKE aller Koordinatoren, Mandatstragenden und Expert:innen finden sich im Anhang (Abschnitt 9.5).

7. Verbreitung und Implementierung

7.1 Konzept zur Verbreitung und Implementierung

Die Leitlinie wird auf der Webseite der AWMF veröffentlicht. Die Verbreitung erfolgt über die beteiligten Fachgesellschaften. Betriebsärztliche Dienste und Gesundheitsmanagement der am NUM-Netzwerk beteiligten Universitätskliniken werden über die Veröffentlichung der Leitlinie informiert.

Empfehlungsspezifische Implementierungsbarrieren und Lösungsvorschläge wurden in der Leitlinienrunde diskutiert und werden im Leitlinientext bei den jeweiligen Empfehlungen dargestellt.

Alle Maßnahmen sollen bereits außerhalb anhaltender Krisenlagen etabliert und trainiert werden. Hierfür sind zunächst Schulungen von Mitarbeitenden notwendig, insbesondere Führungspersonal und Akteuren des betrieblichen Gesundheitsmanagements in den Kliniken und anderweitigen stationären Versorgungseinrichtungen, um die Leitlinieninhalte zu disseminieren und bereits außerhalb von Krisenlagen zu adressieren. Entsprechende Schulungsmaßnahmen sollen als strukturierter und zielorientierter Prozess konzipiert sein, bei dem die Teilnehmenden die erforderlichen Kenntnisse erlangen, um die psychische Gesundheit des Gesundheitspersonals auch unter krisenhaften Bedingungen zu fördern. Der inhaltliche Fokus der Schulungen sollte Maßnahmen zur betrieblichen Gesundheitsförderung, zur Stärkung des Gesundheitswissens sowie individuelle präventive Maßnahmen umfassen. Im ersten Schritt steht die detaillierte Analyse der vorhandenen Ressourcen und Bedürfnisse sowie die Festlegung von klaren Lernzielen und Maßnahmen notwendig. Dies beinhaltet auch die Unterscheidung zwischen verhaltensbezogenen und verhältnisbezogenen Maßnahmen. Zudem sollte die didaktische Planung der Schulungen auf die spezifischen Anforderungen der Zielgruppen, einschließlich der Arbeitszeitkonditionen der Mitarbeitenden, abgestimmt sein. Eine Qualifikation des Schulungspersonals sowie die Bereitstellung von schriftlichen oder digitalen Schulungsmaterialien

werden empfohlen. Der Umfang der Schulung hängt von der Zielgruppe und dem vermittelten Thema ab, ob z.B. Wissen oder Kompetenzen vermittelt werden sollen.

7.2 Unterstützende Materialien für die Anwendung der Leitlinie

Anerkannte Schulungsprogramme für Mitarbeitergesundheit werden zum Beispiel vom Deutschen Netzwerk betrieblicher Gesundheitsförderung (DNBGF) aufgeführt. Informationen zu Gesundheit und Beruf sind ebenfalls über das Bundesgesundheitsministerium zu finden. Die folgenden exemplarisch aufgeführten Maßnahmen sind jedoch noch nicht im Sinne dieser Leitlinie evaluiert und auf Fachrichtigkeit geprüft:

- **Initiative Gesundheit und Arbeit (iga):** www.iga-info.de (bietet Seminare an z.B. zum ressourcenorientierten Vorgehen in der Gesundheitsförderung von Mitarbeitern)
- **BGF-Koordinierungsstelle:** www.bgf-koordinierungsstelle.de (Beratung zu verschiedenen Themen der betrieblichen Gesundheitsförderung z.B. Stressbewältigung und Umgang mit psych. Belastungsfaktoren)
- **psyGA** – Portal für psychische Gesundheit am Arbeitsplatz: www.psyGA.info (stellt vielfältige Informationsmaterialien und auch Selbsttests z.B. zum Thema Arbeitszeit, Resilienz und Stärkung der psych. Gesundheit am Arbeitsplatz zur Verfügung)
- **INQA** – Initiative Neue Qualität der Arbeit: www.inqa.de (siehe oben)
- **BAuA** - Bundesanstalt für Arbeitsschutz und Arbeitsmedizin Aktuelle arbeitswissenschaftliche Erkenntnisse und Handlungshilfen [Bundesanstalt für Arbeitsschutz und Arbeitsmedizin](http://www.baua.de)

7.3 Messgrößen für das Monitoring: Qualitätsziele, Qualitätsindikatoren

Da alle empfohlenen Maßnahmen bereits außerhalb anhaltender Krisenlagen etabliert und trainiert werden sollen, bieten sich zwei Fragestellungen zur Evaluation der Effekte der empfohlenen Maßnahmen an:

1. Effekte der empfohlenen (Teil-)Maßnahmen außerhalb von anhaltenden Krisenlagen
2. Effekte der empfohlenen (Teil-)Maßnahmen in anhaltenden Krisenlagen

Dabei könnten jeweils verglichen werden:

- Kliniken/Stationen/Pflegebereiche mit den Maßnahmen versus Kliniken/Stationen/Pflegebereiche ohne die Maßnahmen
- Vergleich einer(s) Klinik/Station/Pflegebereich vor der Implementierung versus nach der Implementierung
- Vergleich von Kohorten von Mitarbeitenden mit implementierten Maßnahmen versus Kohorten von Mitarbeitenden ohne implementierte

Der Prozess der Implementierung sollte mit qualitativen Studien begleitet werden, welche die verschiedenen Stakeholder-Perspektiven berücksichtigen. Die Auswirkungen der Leitlinienimplementierung bzgl. erforderlicher Ressourcen (Finanzen, Räume, personeller Aufwand etc.) und Nutzen sollte ebenso abgeschätzt werden.

Die folgenden Endpunkte sollten zudem sowohl aus Perspektive der Institutionen wie auch der betroffenen Individuen und Teams quantitativ und qualitativ evaluiert werden:

- Besserung des mentalen Wohlbefindens,
- Reduktion psychischer Symptome, suizidalen Verhaltens und von Substanzgebrauch,
- arbeitsbezogene Endpunkte: Erhalt der Arbeits- und Leistungsfähigkeit, sowie erwünschten Änderungen des Commitments/der „intention to leave“)
- unerwünschten Wirkungen

Diese Endpunkte sollten nicht nur aus der Perspektive der betroffenen Mitarbeitenden und Teams, sondern auch aus Sicht der Institutionen betrachtet werden, um ein umfassendes Bild der Wirksamkeit und der potenziellen Auswirkungen der empfohlenen Maßnahmen zu erhalten.

8. Gültigkeitsdauer und Aktualisierungsverfahren

8.1 Datum der letzten inhaltlichen Überarbeitung und Status

Die der S3-Leitlinie beträgt maximal 5 Jahre ab Verabschiedung durch die beteiligten Fachgesellschaften und Organisationen (@d.h., bis zum DATUM FINAL ERGÄNZEN) oder bis zu einer vorzeitigen Aktualisierung. Bei dringendem Änderungsbedarf werden Änderungen der Empfehlungen in neuen Leitlinienversionen publiziert. Kommentare und Hinweise für den Aktualisierungsprozess sind ausdrücklich erwünscht und können an das Leitliniensekretariat adressiert werden (tutke.wieand@uk-halle.de).

8.2 Aktualisierungsverfahren

Die Gültigkeitsdauer der S3-Leitlinie beträgt maximal 5 Jahre ab Verabschiedung durch die beteiligten Fachgesellschaften und Organisationen (@d.h., bis zum DATUM FINAL ERGÄNZEN) oder bis zu einer vorzeitigen Aktualisierung.

Bei dringendem Änderungsbedarf werden entsprechende Vorschläge in der Leitliniengruppe im Konsensverfahren abgestimmt und ggf. ergänzend publiziert. Kommentare und Hinweise für den Aktualisierungsprozess sind ausdrücklich erwünscht und können an das Leitliniensekretariat adressiert werden (tutke.wieand@uk-halle.de).

10. Anhang 1: Dokumentation Evidenzsynthesen

Im Folgenden werden die modifizierten Fragestellungen und aktualisierten Studiensuchen dargestellt. Ergänzend wird auf die entsprechenden Evidenzzusammenfassungen zu den Fragestellungen mit identischer Nummerierung in der Quell-Leitlinie verwiesen [13].

10.1 Fragestellungen 2/3

10.1.1 Fragestellung 2

Welche betrieblichen Maßnahmen (einschließlich gruppenbezogener Interventionen) sind bei Gesundheitspersonal während andauernder Krisen und Katastrophen verbunden mit einer Besserung des mentalen Wohlbefindens, Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch, dem Erhalt der Arbeits- und Leistungsfähigkeit, erwünschten Änderungen des commitments/der intention to leave und unerwünschten Wirkungen?

10.1.2 Fragestellung 2: Auswahlkriterien (PICOS-Schema)

Population	Gesundheitspersonal
Intervention	Betriebliche Maßnahmen (einschließlich gruppenbezogener Maßnahmen), wie z.B. Maßnahmen zur Kommunikation und Zusammenarbeit im Team, verschiedenste Gestaltungsansätze wie Reorganisation von Dienstplänen und Reduktion von Arbeitszeit oder Arbeitsmenge etc., und/oder partizipative Maßnahmen.
Kontrollbedingung	Übliche, andere und/oder keine Maßnahmen
Endpunkte	Besserung des mentalen Wohlbefindens Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch Arbeitsbezogene Endpunkte: Erhalt der Arbeits- und Leistungsfähigkeit Erwünschte Änderungen des Commitments/der „intention to leave“ Unerwünschte Wirkungen
Studiendesign	Meta-Analysen oder systematische Reviews auf Basis von (cluster) RCTs, nicht-randomisierten kontrollierten Studien und/oder Vorher-Nachher-Vergleichsstudien Relevante Primärstudien, die auf Basis dieser Reviews identifiziert wurden

10.1.3 Fragestellung 3

Welche betrieblichen Maßnahmen (einschließlich gruppenbezogener Interventionen) sind bei Gesundheitspersonal mit erheblichem psychischem Belastungserleben während andauernder Krisen und Katastrophen verbunden mit einer Besserung des mentalen Wohlbefindens, Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch, dem Erhalt der Arbeits- und Leistungsfähigkeit, erwünschten Änderungen des commitments/der intention to leave und unerwünschten Wirkungen?

10.1.4 Fragestellung 3: Auswahlkriterien

Population	Gesundheitspersonal mit erheblichem psychischem Belastungserleben
Intervention	Betriebliche Maßnahmen (einschließlich gruppenbezogener Maßnahmen), wie z.B. Maßnahmen zur Kommunikation und Zusammenarbeit im Team, verschiedenste Gestaltungsansätze wie Reorganisation von Dienstplänen und Reduktion von Arbeitszeit oder Arbeitsmenge etc., und/oder partizipative Maßnahmen.

Kontrollbedingung	Übliche, andere und/oder keine Maßnahmen
Endpunkte	Besserung des mentalen Wohlbefindens Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch Arbeitsbezogene Endpunkte: Erhalt der Arbeits- und Leistungsfähigkeit Erwünschte Änderungen des Commitments/der „intention to leave“ Unerwünschte Wirkungen
Studiendesign	Meta-Analysen oder systematische Reviews auf Basis von (cluster) RCTs, nicht-randomisierten kontrollierten Studien und/oder Vorher-Nachher-Vergleichsstudien Relevante Primärstudien, die auf Basis dieser Reviews identifiziert wurden

10.1.5 Suchstrategien und Rechercheflowcharts

Für Fragestellungen 2 und 3 wurde eine gemeinsame Literatursuche durchgeführt.

10.1.5.2 Rechercheflowchart Fragestellung 2

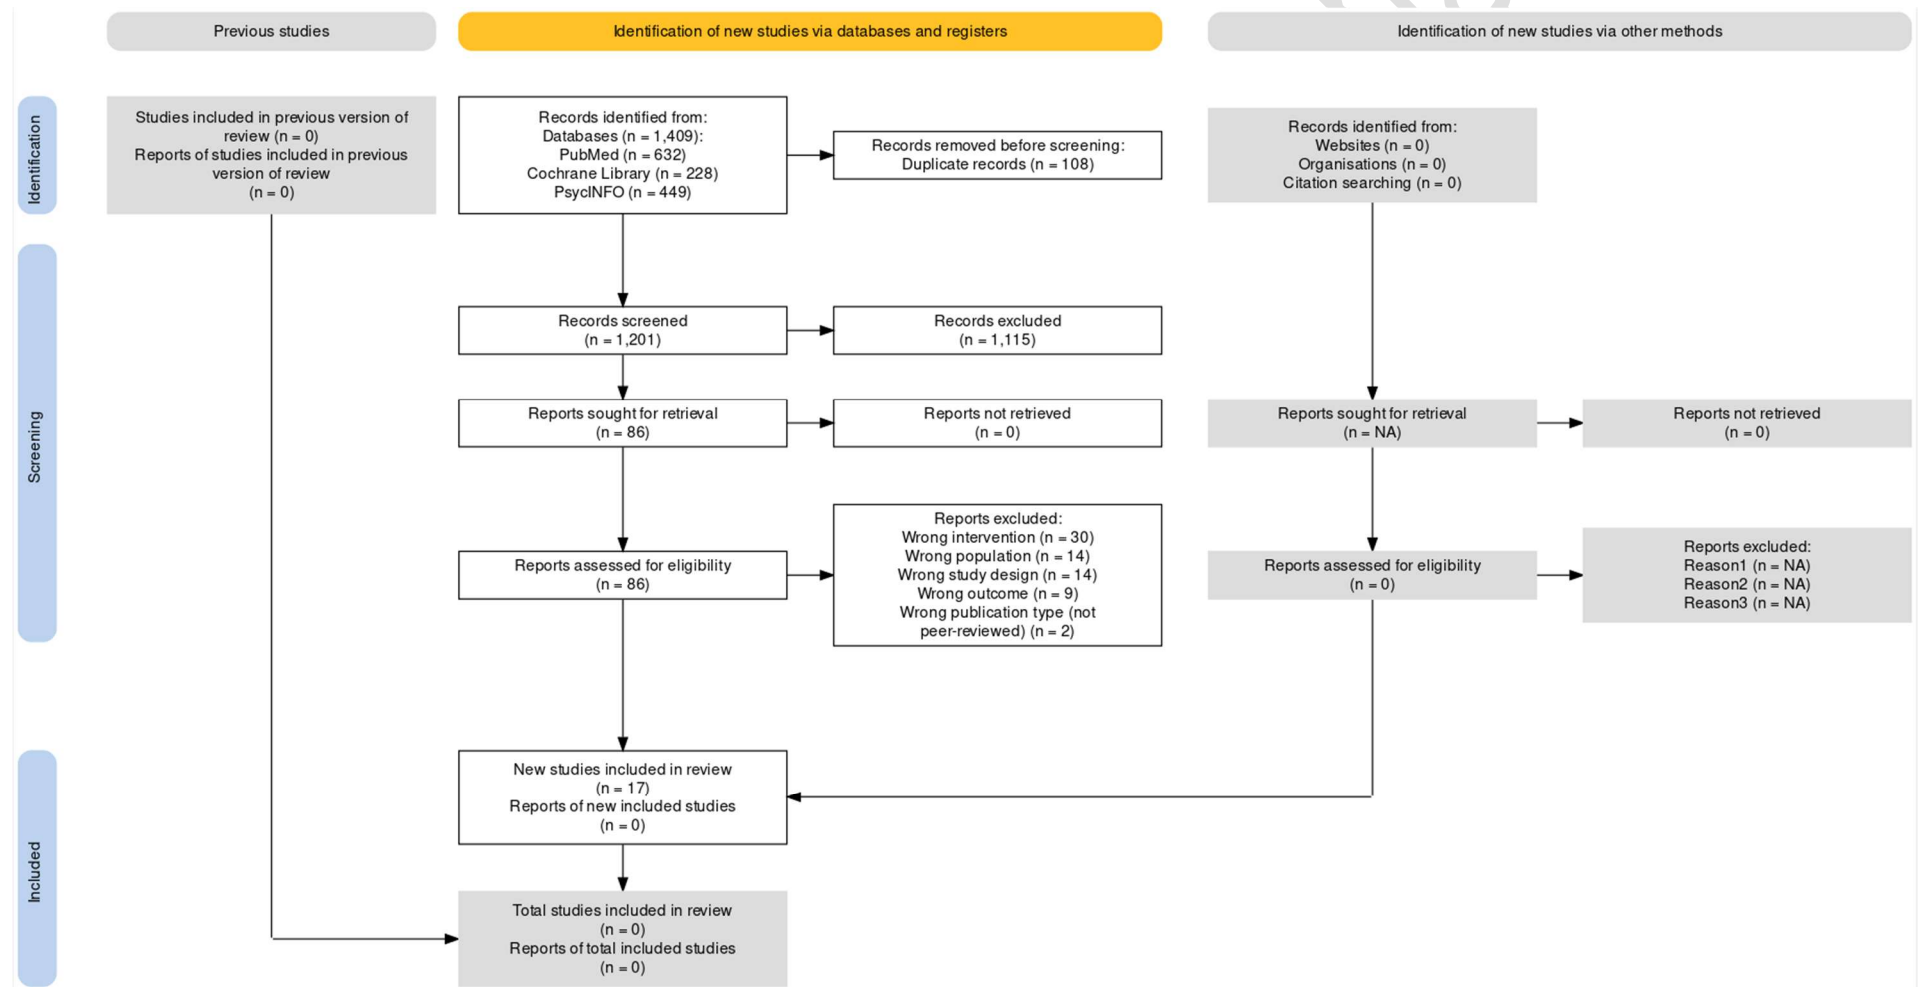

Die Literaturrecherche in den bibliographischen Datenbanken erbrachte 17 Publikationen zu systematischen Reviews und Meta-Analysen, darunter ein Protokoll (Välimäki et al., 2021) zu einem geplanten systematischen Review, sowie eine weitere, ad-hoc identifizierte Publikation (Sephien et al., 2023; vgl. Leitlinientext, Abschnitt 6.1.1. und 17.2).

Die in diesen Übersichtsarbeiten identifizierten relevanten Primärstudien wurden unterschiedlichen Interventionskategorien zugeordnet, vgl. Leitlinientext, Abschnitt 6.1.1. und 17.2.

10.1.5.3 Rechercheflowchart Fragestellung 3

Es wurden keine systematischen Reviews oder Meta-Analysen identifiziert, die sich ausschließlich auf die für Fragestellung 3 relevante Zielgruppe beziehen.

Berücksichtigt wurden insofern Studien aus Fragestellung 2, die relevante Subgruppenanalysen (für Mitarbeitende mit erhöhtem psychischem Belastungserleben) berichteten oder deren Gesamtstichprobe auffällig starke psychische Belastung berichtete (Mittelwerte über klinisch relevanten Cut-Offs entsprechender psychometrischer Messinstrumente). Für zwei Interventionskategorien fanden sich entsprechende Studien:

10.2 Fragestellungen 5/7

10.2.1 Fragestellung 5

Welche Trainingsmaßnahmen für Führungskräfte von Gesundheitspersonal sind während andauernder Krisen und Katastrophen verbunden mit a) bei den Führungskräften: einer Verbesserung, des Wissens über und der Haltung zu (i.S. Sensibilisierung für) mentale Gesundheit, der Fähigkeit, die psychische Gesundheit der Mitarbeitenden und deren Wohlergehen aktiv zu unterstützen und b) bei den Mitarbeitenden: Besserung des mentalen Wohlbefindens, Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch, Erhalt der Arbeits- und Leistungsfähigkeit, erwünschten Änderungen des *commitments*/der *intention-to-leave* und unerwünschten Wirkungen?

10.2.2 Fragestellung 5: Auswahlkriterien (PICOS-Schema)

Population	Führungskräfte von Gesundheitspersonal
Intervention	Trainingsmaßnahmen zur Förderung der Sensibilisierung für psychische Gesundheit und des Gesundheitswissens
Kontrollbedingung	Übliche, andere und/oder keine Maßnahmen
Endpunkte	Bei den Führungskräften: Wissen über und Sensibilisierung für mentale Gesundheit (z.B. Erhöhung des Wissens über die psychische Gesundheit, Reduktion der Stigmatisierung psychischer Erkrankungen) Fähigkeit, die psychische Gesundheit der Mitarbeitenden und deren Wohlergehen aktiv zu unterstützen (z.B. Verbesserung der Suche nach Hilfsangeboten bei psychischen Gesundheitsproblemen) Bei den Mitarbeitenden: Besserung des mentalen Wohlbefindens, Reduktion psychischer Belastung, Reduktion suizidalen Verhaltens, Reduktion von Substanzgebrauch, Erhalt der Arbeits- und Leistungsfähigkeit, Commitment/intention to leave und unerwünschten Wirkungen
Studiendesign	Meta-Analysen oder systematische Reviews auf Basis von (cluster) RCTs, nicht-randomisierten kontrollierten Studien und/oder Vorher-Nachher-Vergleichsstudien Relevante Primärstudien, die auf Basis dieser Reviews identifiziert wurden

10.2.3 Fragestellung 7

Welche Trainingsmaßnahmen für Gesundheitspersonal (inklusive Führungspersonal) sind während andauernder Krisen und Katastrophen verbunden mit einer Verbesserung des Wissens über und der Haltung zu (i.S. Sensibilisierung für) mentale Gesundheit, der Fähigkeit, die psychische Gesundheit der Mitarbeitenden und deren Wohlergehen aktiv zu unterstützen, Besserung des mentalen Wohlbefindens, Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch, Erhalt der Arbeits- und Leistungsfähigkeit, erwünschten Änderungen des *commitments*/der *intention to leave* und unerwünschten Wirkungen?

10.2.4 Fragestellung 7: Auswahlkriterien

Population	Gesundheitspersonal
Intervention	Trainingsmaßnahmen zur Förderung der Sensibilisierung für psychische Gesundheit und des Gesundheitswissens
Kontrollbedingung	Übliche, andere und/oder keine Maßnahmen
Endpunkte	Verbesserung • des Wissens über und Sensibilisierung für mentale Gesundheit • der Fähigkeit, die psychische Gesundheit der Mitarbeitenden und deren Wohlergehen aktiv zu unterstützen sowie • Besserung des mentalen Wohlbefindens • Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch • Arbeitsbezogene Endpunkte: ○ Erhalt der Arbeits- und Leistungsfähigkeit ○ Erwünschte Änderungen des <i>commitments</i>/der <i>intention to leave</i> • Unerwünschte Wirkungen
Studiendesign	• Meta-Analysen oder systematische Reviews auf Basis von (cluster) RCTs, nicht-randomisierten kontrollierten Studien und/oder Vorher-Nachher-Vergleichsstudien • Relevante Primärstudien, die auf Basis dieser Reviews identifiziert wurden

10.2.5 Fragestellung 5/7: Suchstrategien und Rechercheflowcharts

Für Fragestellungen 5 und 7 wurde eine gemeinsame Suche durchgeführt.

10.2.5.1 Suchstrategie

10.2.5.2 Rechercheflowchart Fragestellung 5

Die modifizierte Aktualisierungssuche erbrachten keine neue Evidenz i.S. der Einschlusskriterien, insofern wird auf die Evidenztabelle der Quelleitlinie verwiesen ([13], S. 71 bis 93; vgl. auch Leitlinientext Abschnitte 7.1.1 und 17.4)

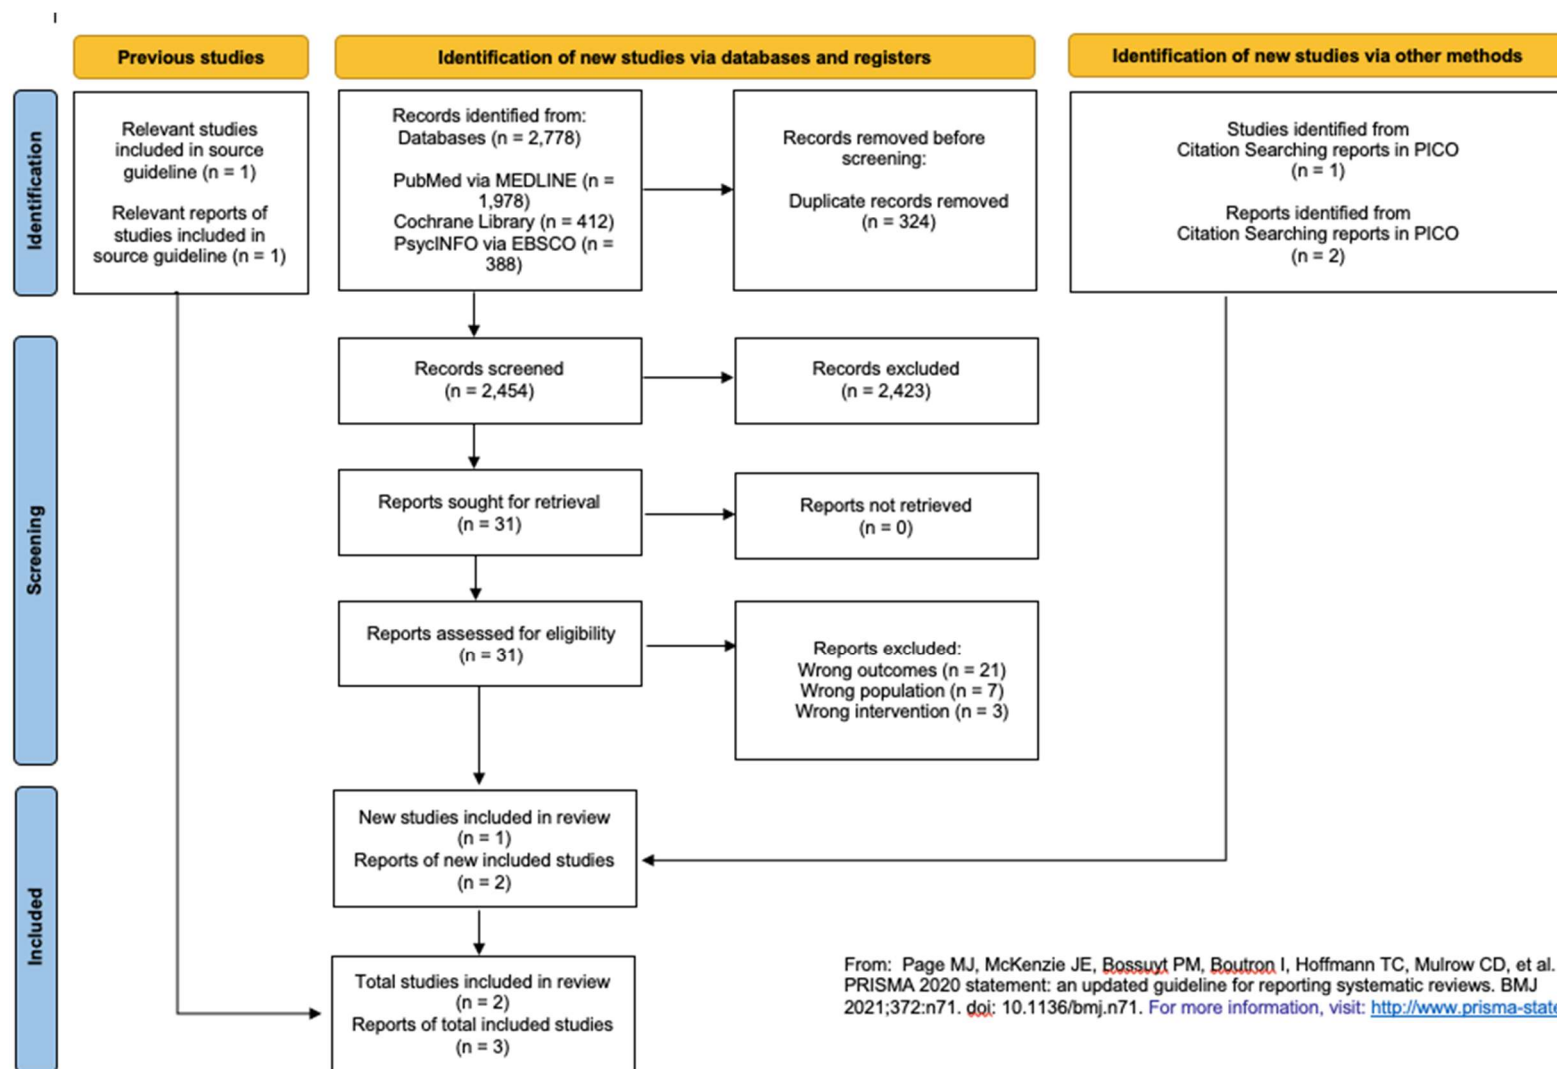

10.2.5.3 Recherche/flowchart Fragestellung 7

Die modifizierte Aktualisierungssuche erbrachte zwei relevante Primärstudien i.S. der Einschlusskriterien (vgl. auch Leitlinientext Abschnitte 7.2.1 und 17.5)

Neu identifizierte Primärstudien:

- Amsalem, D., Wall, M., Lazarov, A., Markowitz, J. C., Fisch, C. T., LeBeau, M., Hinds, M., Liu, J., Fisher, P. W., Smith, T. E., Hankerson, S., Lewis-Fernández, R., Neria, Y., & Dixon, L. B. (2022). Destigmatising mental health treatment and increasing openness to seeking treatment: randomised controlled trial of brief video interventions. *BJPsych open*, 8(5), e169. <https://doi.org/10.1192/bjo.2022.575>

10.3 Fragestellung 13

10.3.1 Fragestellung

Fragestellung 13: Werden betrieblichen Screeningprogramme psychischer Gesundheit während des Beschäftigungsverhältnisses während andauernder Krisen und Katastrophen durch Gesundheitspersonal akzeptiert, und führen diese zu einer Besserung des mentalen Wohlbefindens Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch Erhalt der Arbeits- und Leistungsfähigkeit erwünschten Änderungen des *commitments/der intention to leave* sowie unerwünschten Wirkungen?

10.3.2 Fragestellung 13: Auswahlkriterien (PICOS-Schema)

Population	Gesundheitspersonal
Intervention	Betriebliche Screeningprogramme zur Feststellung von Symptomen und/oder Diagnosen der psychischen Gesundheit während des Beschäftigungsverhältnisses, gefolgt von Feedback, Beratung und/oder Überweisung
Kontrollbedingung	Übliche, andere und/oder keine Maßnahmen
Endpunkte	• Besserung des mentalen Wohlbefindens • Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch • Arbeitsbezogene Endpunkte: • Erhalt der Arbeits- und Leistungsfähigkeit • Erwünschte Änderungen des Commitments/der „intention to leave“
Studiendesign	• Unerwünschte Wirkungen • Meta-Analysen oder systematische Reviews auf Basis von (cluster) RCTs, nicht-randomisierten kontrollierten Studien und/oder Vorher-Nachher-Vergleichsstudien • Relevante Primärstudien, die auf Basis dieser Reviews identifiziert wurden

10.3.3.2 Recherche/flowchart

Die modifizierte Aktualisierungssuche erbrachte zwei relevante Primärstudien i.S. der Einschlusskriterien ohne Krisenbezug sowie eine weitere Primärstudie mit (vgl. auch Leitlinientext Abschnitte 7.2.1 und 17.5).

Neu identifizierte Primärstudien ohne Krisenbezug:

Gärtner, F. R., Nieuwenhuijsen, K., Ketelaar, S. M., van Dijk, F. J. H., & Sluiter, J. K. (2013). The mental vitality @ work study: Effectiveness of a mental module for workers' health surveillance for nurses and allied health care professionals on their help-seeking behavior. *Journal of Occupational and Environmental Medicine*, 55(10), 1219–1229. <https://doi.org/10.1097/JOM.0b013e31829f310a>

Ketelaar, S. M., Gärtner, F. R., Bolier, L., Smeets, O., Nieuwenhuijsen, K., & Sluiter, J. K. (2013). Mental Vitality @ Work--a workers' health surveillance mental module for nurses and allied health care professionals: Process evaluation of a randomized controlled trial. *Journal of Occupational and Environmental Medicine*, 55(5), 563–571. <https://doi.org/10.1097/JOM.0b013e318289ee3e>

Neu identifizierte Primärstudien mit Krisenbezug:

Steel, J. S., Godderis, L., & Luyten, J. (2022). Short-term effectiveness of face-to-face periodic occupational health screening versus electronic screening with targeted follow-up: Results from a quasi-randomized controlled trial in four Belgian hospitals. *Scandinavian Journal of Work, Environment & Health*, 48(3), 220–228. <https://doi.org/10.5271/sjweh.4011>

Konsultationsfassung

10.4 Fragestellungen 9A/9B

10.4.1 Fragestellung 9A

Welche allgemeinen, individuumorientierte oder gruppenbezogene Maßnahmen sind bei Gesundheitspersonal während andauernder Krisen und Katastrophen verbunden mit einer Besserung des mentalen Wohlbefindens, Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch, Erhalt der Arbeits- und Leistungsfähigkeit, erwünschten Änderungen des *commitments/der intention to leave* und unerwünschten Wirkungen?

10.4.2 Fragestellung 9A: Auswahlkriterien (PICOS-Schema)

Population	Gesundheitspersonal
Intervention	Allgemeine, individuumorientierte oder gruppenbezogene Maßnahmen: z.B. psychosoziale Interventionen, sportliche Aktivität, Gesundheitsförderung
Kontrollbedingung	Übliche, andere und/oder keine Maßnahmen
Endpunkte	• Besserung des mentalen Wohlbefindens • Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch • Arbeitsbezogene Endpunkte: • Erhalt der Arbeits- und Leistungsfähigkeit • Erwünschte Änderungen des <i>Commitments/der „intention to leave“</i>
Studiendesign	• Unerwünschte Wirkungen • Meta-Analysen oder systematische Reviews auf Basis von (cluster) RCTs, nicht-randomisierten kontrollierten Studien und/oder Vorher-Nachher-Vergleichsstudien • Relevante Primärstudien, die auf Basis dieser Reviews identifiziert wurden

10.4.3 Fragestellung 9B

Welche allgemeinen, individuumorientierte oder gruppenbezogene Maßnahmen sind bei Gesundheitspersonal mit erheblichem psychischem Belastungserleben während andauernder Krisen und Katastrophen verbunden mit einer Besserung des mentalen Wohlbefindens, Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch, Erhalt der Arbeits- und Leistungsfähigkeit, erwünschten Änderungen des *commitments/der intention to leave* und unerwünschten Wirkungen?

10.4.4 Fragestellung 9B: Auswahlkriterien (PICOS-Schema)

Population	Gesundheitspersonal mit erheblichem psychischem Belastungserleben
Intervention	Allgemeine, individuumorientierte oder gruppenbezogene Maßnahmen: z.B. psychosoziale Interventionen, sportliche Aktivität, Gesundheitsförderung
Kontrollbedingung	Übliche, andere und/oder keine Maßnahmen
Endpunkte	• Besserung des mentalen Wohlbefindens • Reduktion psychischer Belastung, suizidalen Verhaltens und von Substanzgebrauch • Arbeitsbezogene Endpunkte:

Studiendesign

- Erhalt der Arbeits- und Leistungsfähigkeit
- Erwünschte Änderungen des Commitments/der „intention to leave“
- Unerwünschte Wirkungen
- Meta-Analysen oder systematische Reviews auf Basis von (cluster) RCTs, nicht-randomisierten kontrollierten Studien und/oder Vorher-Nachher-Vergleichsstudien
- Relevante Primärstudien, die auf Basis dieser Reviews identifiziert wurden

10.4.5 Fragestellungen 9A/9B: Suchstrategien und Rechercheflowcharts

10.4.5.1 Suchstrategie

Für Fragestellungen 9A und 9B wurde eine gemeinsame Suche durchgeführt.

Zusätzlich wurden für Fragestellung 9A die Evidenz der Quell-Leitlinie zu Fragestellungen 8 und 9 sowie für Fragestellung 9B die Evidenz zu Fragestellung 10 der Quell-Leitlinie berücksichtigt.
