Successful cooperation

How interdisciplinary cooperation determines the success of e-mental health

For the effective implementation of e-health, collaboration between various disciplines within the implementation process is very important. The eMEN platform facilitates this interdisciplinary collaboration at both national and international levels. Where does your organisation stand when it comes to e-mental health? And what is the value you can add in the implementation and scaling up process?

STAKEHOLDERS IN THE E-MENTAL HEALTH IMPLEMENTATION PROCESS

WITHOUT RESEARCHER NO SCIENTIFIC VERIFICATION

WITHOUT
PEOPLE WITH LIVED
EXPERIENCE
NO UNDERSTANDING
OF NEED
